

BANA CLEANING SOLUTIONS PVT. LTD. COMPANY PROFILE

INTRODUCTION

As a new company launched in the post-Covid19 era, Bana Cleaning Solutions understands the importance and need for high-quality sanitizing & cleaning solutions.

Our company has a special focus on the food & beverage and hospitality sector with over 7 years of experience working with over 120+ restaurants, hotels, malls, offices and other commercial establishments.

We are committed to providing sustainable, eco-friendly tailor-made drain-line solutions for kitchens, grease traps, chambers, STPs, ETPs, sewage sumps, urinals & toilets to ensure 100% effectiveness in solving the source of the problem related to blockages and odours.

Our products contain a proprietary blend of vegetative bacteria that occur naturally in the environment and digest fats, oils, and grease in drain lines. This prevents costly plumbing issues and establishes an ecologically functioning biofilm that contributes to the natural biodiversity in septic/sewer systems.

In addition, we have a wide range of retail products offered via e-commerce platforms such as Amazon offering a specialized pet deodorizer (urine odour & stain remover), home solutions for kitchen drains, urinal screens and septic tank solutions.

Led by a dedicated team of technicians, accounts and administration staff, Bana Cleaning is operating currently in Delhi NCR and Mumbai.

USP/ ADVANTAGES

Chemical-free: our products contain no chemicals, acids, surfactants or emulsifiers

Lowers pollution levels: Significantly lower levels of Grease & Oil, BOD, COD levels when treated water is discharged into the sewer or sewage treatment plant

Environment-friendly: 100% biodegradable whereas grease is dumped in a landfill or water body in large plastic bags

Low Maintenance Cost: zero blockages in the drain lines, reduces labor cost; improves the life of equipment such as motors, drainpipes etc.

Quality of life & health benefit: for cleaners, sewage workers & maintenance staff since noxious odours are eliminated and grease quantity reduces

CLIENTS- Delhi NCR

Post Covid-19 the hospitality industry has faced many challenges and Bana Cleaning remains committed to partner with clients to regain their foothold by providing high quality products and services at affordable rates.

Bana Cleaning is currently operating in Delhi/NCR with expansion plans for Mumbai.

Our clients include entire chain of McDonalds' in north India (80+ outlets in Delhi NCR), Taco Bell, PizzaExpress, DLF Promenade, The Oberoi Maidens, Sann & Co etc.

INTERNATIONAL PARTNER

Bana Cleaning is the India distributor of the EnviroLogik® brand promoted by Environmental Biotech Int'l (EBI), founded in 1990 with its headquarters in Florida, USA.

EBI has an international presence in United Kingdom, Australia, New Zealand, Canada, Colombia, Japan, Malaysia, Mexico, Singapore, UAE and Slovenia.

Recently, they have re-launched a global franchise brand EnviroLogik in North America and other countries to provide new and better bacterial drain line solutions, urine & general odor control products, sanitation and disinfection products & services. Visit the [EnviroLogik® USA website](#) for more information.

Bana Cleaning's goal is to expand the franchise across India in the coming years.

KEY PRODUCTS

Grease Blast – unblocks drains naturally

Installed in kitchens & grease chambers, this automatic dispenser-based solution is ideal to remove drain blockages and odours. Grease Blast contains beneficial microbes that 'eat' the grease and convert it to water! It reduces BOD, COD & G&O levels in wastewater and is ideal for pre-treating water before it enters the sewer or STP. It is cost-effective, compact and does not require water or electricity connection. It is one-tenth the cost of ETP with very low running cost.

Dosing quantity depends on the size of the restaurant, hotel or commercial kitchen, write to info@bana.co.in for a quote.

Odour Eliminator - for STP odours

This disinfectant cleaner works as a deodorizer, cleaning agent and odour counteractant. Odour Eliminator releases a patented odour counteractant that can be used via auto-dispensing systems or sprayed manually to any problem odour area such as grease pits, sumps, garbage bins, kitchens etc. It can be used to clean surfaces via mops, carpet cleaning equipment, floor scrubbers, foggers, and misting systems. It is excellent at blocking even the most rancid odors.

Dosing quantity depends on the size of the facility, write to info@bana.co.in for a quote.

UrineFree- Fast-action odour & stain remover

It is an all-in-one odour and stain remover for urine smells and stains. Using a bio-enzymatic technology, UrineFree attacks the source of the odour- the uric acid crystal. It works instantly and the smell is gone in minutes! It is an effective cleaner for pets, children, office use and for elderly people with urinary incontinence issues.

Currently, the product is selling widely on Amazon and leading pet shops in Delhi, Mumbai and Bangalore. [Buy Online on Amazon](#)

Septic Aid Liquid

The natural way to maintain septic systems Septic Aid liquid releases millions of beneficial micro-organisms into the septic system and help the population of natural microbes to grow and replace the ones lost to soaps and chemicals. [Buy Online Amazon](#)
